Curriculum Vitae

Education B.Eng (Wentworth Institute of Technology, Boston); (Manchester U)

Nationality and birth USA

Over the past 20 years, Chester has led several major planning and design efforts for the restoration and development of progressive health care and work place environments. Mr. Bartels has a broad view of the built environment. Having studied engineering and the environmental sciences, he applies this comprehensive expertise into architecture and planning as an advocate for clients. Chester's main focus is on design management and the creative process.
