

PROMONTORIO

Paulo Pereira

Director of Landscape Architecture

Born in Viseu (1978), holds a MLArch from Evora University (2003). Paulo began working in 2002 at Cerejeiro Landscape Architects where he remained for 4 years working in public and private projects from concept through design development and from construction documents through site supervision. Between 2006 and 2008, he went on to work for Inês Norton and João Gomes da Silva at Global, developing and supervising small and midsize projects. In 2009, he joined the practice and, from inception, oversaw the development of Landscape Architecture department; a team which is now able to take on large-scale resorts, urban parks or city planning programmes, all of which imply dealing with complex social, environmental and economic constraints.
